## Unit â€“ 1 : Session â€“ 2 : SLO â€“ 2 | Operating System as Resource Manager â€” Message Puzzle

### I. Rebuilt Original Message

• Choosing the letters for each cell of the puzzle rebuilds the paragraph:
• "THE OPERATING SYSTEM ACTS AS A RESOURCE MANAGER. IT ALLOCATES THE CPU, MEMORY,
• INPUT/OUTPUT DEVICES AND FILES AMONG COMPETING PROGRAMS, ENSURING EFFICIENT,
• FAIR AND SECURE USE OF ALL HARDWARE RESOURCES."

### II. Key Points of the Paragraph

• The OS is the resource manager of the computer system.
• Resources managed: CPU time, main memory, I/O devices, files and data.
• Goals: efficient utilization, fairness among programs, protection and security.
